

In March 2020, Covid 19 changed our world in ways we never thought possible. Social isolation, physical distancing and increased levels of fear and uncertainty have closed many doors in our community. Our hearts go out to all that have suffered, both directly and indirectly, as a result of the pandemic. As doors begin to re-open, we are confident that we will overcome these life altering experiences together.

Now, more than ever, The Cody Shepperd Project is committed to engaging our community and Stopping the Silence. Centre Wellington has been experiencing a mental health crisis among our youth since 2017 with the loss of nine lives to suicide within an eight-month period. With increased trauma resulting from the impact of Covid 19, the crisis has worsened. Children's helplines are reporting a 350% increase in calls from kids experiencing anxiety and mental health concerns. We need to act now to prevent further loss and tragedy.

Through The Cody Shepperd Project Golf tournament, we have partnered with Portage, a drug addiction and mental health facility in Elora to expand our reach in the community and serve those who are suffering in silence. The work of Portage is grounded in mental health and youth addiction. With your support, not only will we change more lives, **we hope to save more lives.**

Sunday, September 12, 2021  
9:00am – 2:00pm (Last Tee off 1:50pm)

8136 Wellington Rd 22, Wellington ON  
Teams of 4, \$100 per player  
18 Holes, play best ball  
*Carts and an offsite lunch is included*

Cody Shepperd wore many hats, including, loving son, supportive brother, trusted friend and accomplished athlete. In 2016, the impact of numerous concussions Cody suffered emerged, resulting in hospitalization for depression and anxiety. What began as a mental health journey, eventually turned to the most challenging fight of his life. Cody was strong and fought hard to overcome his mental illness, while surrounded by a community of friends and family who loved and admired him. On October 20, 2017, Cody was unable to continue the fight. At the young age of 20, Cody Shepperd died by suicide.

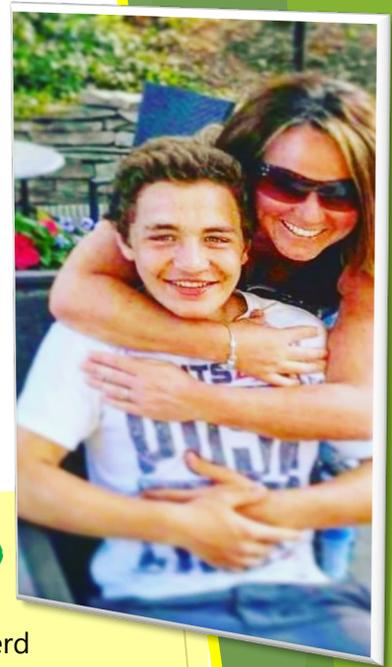

Our lives were forever changed on that day. With the loss of our son, came an overwhelming need to fight. Cody has inspired all of us to fight for those who continue to suffer in silence. Through The Cody Shepperd Project, we are committed to raising awareness and supporting local programs and services that address mental health and well being. Our community needs us. Together, we will
